David Kear – Quincy, MA • (203) 501-6411 • qwer.kear@gmail.com • GitHub: github.com/qwerkear

Summary:
Software engineer with 5+ years of experience delivering cloud and web solutions in financial services and insurance. Strong in Java, SQL, microservices, and Agile delivery; experienced leading implementations, partnering with stakeholders, and improving reliability, performance, and compliance.

Experience:

State Street Bank, Boston, MA (June 2024 – Present)
Software Engineering & Development Officer (Development Lead)

- **Lead Developer / Delivery:** Led a small team enhancing a financial messaging platform that processes client investment data via microservices.
- **Auditability & Compliance:** Implemented an event-driven runtime audit trail using the Elastic Stack to improve transparency and reporting.
- **Cloud Migration:** Moved critical services to **Azure Kubernetes Service (AKS)**, improving scalability and operational resilience.
- **Agile Leadership:** Mentored engineers, shaped user stories, and improved delivery cadence using Scrum/Kanban practices.

Travelers, Hartford, CT (July 2020 – March 2024)
Software Engineer

- **Full-Stack Development:** Built customer-facing UI in **React** and Node.js/Express APIs, improving responsiveness and reducing page load time.
- **Cloud Transformation:** Migrated on-prem applications to **AWS**, improving scalability and reducing peak memory usage.
- **Quality & Testing:** Delivered unit/integration/regression automation with 90%+ coverage, improving stability and release confidence.
- **Analytics & Product Support:** Created analytics dashboards to monitor behavior and performance, improving success on key workflows.

GoldenTree Asset Management, New York, NY (June 2018 – August 2018)
IT Intern

- **Automation & Scripting:** Developed PowerShell scripts to automate cross-system communications via Outlook and to update SQL databases with new **trade and holdings data**, streamlining daily portfolio data updates.
- **Financial Software Testing:** Tested and validated enhancements to an in-house accounting software platform (per vendor specifications), identifying issues early and saving approximately one month of developer effort in debugging and rework.

Information Classification: General

Education:

State University of New York at Oswego, Oswego, NY – **B.S. in Computer Science**, Minor in Economics, August 2019

Technical Skills & Training:

Technical Skills	Certifications & Training
Languages: Java (Spring Boot), JavaScript (Node.js, React) Databases: SQL (PostgreSQL, DB2), MongoDB Cloud/DevOps: Azure (AKS, DevOps), AWS (EC2, Lambda), Docker/K8s, Jenkins CI/CD Methods: Agile (Scrum, Kanban)	**AWS Cloud Practitioner Essentials** **Introduction to Lean Agility** **Machine Learning I (Basics)** **Generative AI in the Workplace**
